

Soil Surfactant | **Foliar Adjuvant** | Utility

HALO 90

HALO 90 is premium 90/10 spreader adjuvant. The low foaming, quick wetting formula of **HALO 90** provides uniform coverage and increased spray drop retention. **HALO 90** works great for wettable powders and multiple component spray mixes. The minimum use rate of **HALO 90** often provides the best results!

Wettable Powders | **Great Spreader** | **Increase Retention**

Application Instructions:

Turf and Ornamental: 1-4 pints / 100 gal.

Non-Crop: 1-4 pints / 100 gal.

Agriculture: 1-4 pints / 100 gal.
