

TGP Si 15

Silica

TGP Si 15 is a plant available form of Silica. Silica has been proven to strengthen cells walls, increase salt and drought tolerance and improve overall resistance from abiotic and biotic stress. Silica applications to turf have shown significant increase in overall wear tolerance.

INCREASES DROUGHT TOLERANCE | IMPROVES PLANT STRENGTH | PROMOTES PLANT HEALTH

GUARANTEED NUTRITIONAL ANALYSIS

Silica (SiO₂)..... 15.0%

Derived from: Silica Dioxide Solution

Application Rate:

Cool-season: 1.5-3.0 fl. oz. / 1,000 sq. ft.
9.1 lbs / gal.
