

COMPLETE™ PLANT AND SOIL HEALTH

It is common knowledge that a healthy soil environment contributes to a healthy plant. When we tend to soil health and plant health, you can expect the highest performing turf surfaces. Turf Fuel's Complete Plant and Soil Health program provides the essential nutrients and biostimulants for day to day turf performance while feeding the soil ecosystem.

RECOMMENDED PRODUCTS

VERTICAL™

6 fl.oz / 1,000 ft²

REACTION
PLANT • ROOTS • SOIL

A complete plant and soil health supplement. Vertical™ contains a proprietary sugar extract specific to enhance plant and soil health. By energizing the soil, more CO₂ is liberated to fuel photosynthesis.

MIC DROP®

3 fl.oz / 1,000 ft²

REACTION
PLANT • ROOTS • SOIL

Mic Drop delivers intense, long lasting color while enhancing the biology in any soil. Mic Drop has been university proven to increase a plant's photosynthetic ability. More photosynthesis means more energy.

BASE N25™

3 fl.oz / 1,000 ft²

Is a core nitrogen product with 40% slow release nitrogen derived from urea triazine. Expect steady, controlled growth for excellent turf quality and color. Base N25 is enhanced with Turf Fuel's Grow2Defend biostimulant group.

PRODUCT RATE RECOMMENDATIONS

7 DAY INTERVAL

Apply 3 fl.oz of VERTICAL and 1.5 fl. oz of Mic Drop and Base N25 0.05 lbs N/1000ft²

14 DAY INTERVAL

Apply 6 fl.oz of VERTICAL and 3 fl. oz of Mic Drop and Base N25 0.10 lbs N/1000 ft²
