# CLEANSE

## PREMIUM WATER SOLVENT SYSTEM

**CLEANSE** is a concentrated water solvent. **CLEANSE** provides an aggressive treatment strategy, aimed at improving the wetting properties of water during difficult environmental conditions. **CLEANSE** improves water penetration and hydration by allowing water to flush known hydrophobic organic materials.

**Penetrant | Improves Water Movement | Restores Natural Hydration**

### Application Instructions:

Seasonal Treatment: Use 6 fl. oz. / 1,000 sq. ft. (190 mL/100 m<sup>2</sup>) • Apply every 7-10 days. Make 2-3 applications at, or just prior to, the onset of extreme summer conditions. Follow up with monthly application of THE KRAKEN or CLEANSE.

**Maintenance:** Use 4-6 fl. oz. / 1,000 sq. ft. (125-190 mL/100 m<sup>2</sup>) • Apply every 30 days or as needed. Always apply in 2 gal. solution / 1,000 sq. ft. (min. 8 L/100 m<sup>2</sup>)

### Features and Benefits

- Increase rewetting behavior of water
- Increase water penetration
- Improved hydration
- Safe, no burn formulation
