

# Pacific Blue HC

## Blue Spray Pattern Indicator

**TS Pro Pacific Blue HC** is a temporary, high concentrate blue spray pattern indicator formulated to provide visual evidence of where a spray application has been made. TS Pro Pacific Blue HC eliminates waste due to overlapping and skipping, while it indicates drift and mechanical malfunction. TS Pro Pacific Blue HC is nontoxic.

Applications	Rates & Comments
For use with pesticides registered for aquatics, forestry, industrial, municipal, noncrop-land, rights-of-way, ornamentals, turfgrass and other appropriate uses. Also designed for use in lakes, ponds, decorative water features and other impounded bodies of water with limited flow.	<b>Broadcast Application:</b> 8-24 ounces per 100 gallons (250-750 ml per 400 liters) of spray solution. <b>Hand-held and Back-Pack Sprayers:</b> 0.5-1.0 ounces per 3 gallons (15-30 ml per 10 liters) of spray solution. <b>Lakes &amp; Ponds:</b> 1 gallon, 4 liters per 6.6 acre; 8150 cubic meters of water. <b>Measurement formula for calculating acre feet:</b> Determine the number of acre feet in the lake or pond. Surface area in acres [length (ft) X width (ft) / 43,560 times the average depth (ft) = Acre Feet. An acre foot is the area covering one surface acre, 12 inches deep.
Colorant for Termiticide Pre-Treatment	0.25-0.50 oz per gallon ; 3 to 5 ml per 1 liter of spray solution
Turf or weed color, height, and individual water conditions, such as hardness, pH, iron content, etc., may dictate variations from the above suggested rates. Sight adjustment is recommended. Test for required concentration before use and adjust as needed.

#### GENERAL INFORMATION

TS Pro Pacific Blue HC is a temporary, high concentrate blue spray pattern indicator formulated to provide visual evidence of where a spray application has been made. TS Pro Pacific Blue HC eliminates waste due to overlapping and skipping, while it indicates drift and mechanical malfunction. TS Pro Pacific Blue HC is nontoxic.

#### DIRECTIONS FOR USE

For use with pesticides registered for aquatics, forestry, industrial, municipal, noncropland, rights-of-way, ornamentals, turfgrass and other appropriate uses.

#### STORAGE AND DISPOSAL

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Rinse container thoroughly and dispose of the container in accordance with federal, state and local regulations.

**CONDITIONS OF SALE** Read the information contained herein before buying or using this product. If the stated terms are unacceptable, return the product at once, unopened. It is critical that this product be used and mixed only as specified on this label. Neither the manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and/or handling. Target Specialty Products warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Target Specialty Products' control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated hereon and even though label directions are followed. Follow directions carefully. Timing, mixture, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the Company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product shall be the purchase price paid by the user or buyer for the product involved.

#### USE RATES

**Broadcast Application:** 8-24 ounces per 100 gallons (250-750 ml per 400 liters) of spray solution.

**Hand-held and Back-Pack Sprayers:** 0.5-1.0 ounces per 3 gallons (15-30 ml per 10 liters) of spray solution.

**Lakes & Ponds:** 1 gallon, 4 liters per 6.6 acre; 8150 cubic meters of water

**Measurement formula for calculating acre feet:** Determine the number of acre feet in the lake or pond. Surface area in acres [length (ft) X width (ft) / 43,560 times the average depth (ft) = Acre Feet. An acre foot is the area covering one surface acre, 12 inches deep.

Turf or weed color, height, and individual water conditions, such as hardness, pH, iron content, etc., may dictate variations from the above suggested rates. Sight adjustment is recommended. Test for required concentration before use and adjust as needed.

#### MIXING

In the absence of specific mixing recommendations by the basic pesticide manufacturer, use the following mixing procedure:

1. Fill spray tank  $\frac{1}{2}$  full of desired water volume.
2. While agitating, add the appropriate amount of TS Pro Pacific Blue HC for the entire desired finished spray volume.
3. Continue filling the spray tank to  $\frac{3}{4}$  of desired level.
4. Begin adding pesticides in the following order: a. Dry flowables and dispersible granule pesticides. b. Flowables. c. Water-soluble pesticides. d. Emulsifiable concentrate pesticides.
5. Add additional adjuvants, if required.
6. Continue agitation and finish filling spray tank to desired level.
