

Premium Plant Nutrition

Nterceptor Flex

Nterceptor Flex is a nitrogen urease inhibitor intended to aid nitrogen stability, availability, and overall plant uptake as a supplement to regular fertilization.

Nterceptor Flex is not intended to provide nutrients normally required by turf.

LIQUID FERTILIZERS: **Nterceptor Flex** may be mixed with liquid fertilizers such as aqua ammonia or other liquid ammoniacal or urea nitrogen fertilizers. Liquid fertilizers containing high levels of phosphate should not be used with **Nterceptor Flex**. If pesticides are added to the tank mix in conjunction with liquid fertilizers a compatibility jar test should be performed prior to large scale application.

PRINCIPAL FUNCTIONING AGENTS:

Dicyandiamide 25.0%
N-(n-butyl) thiophosphoric triamide 17.0%

UREA	2-3 qts. (64-96 fl.oz.) / ton urea 1.6-2.6 ounces/ 50lbs urea
LIQUID FERTILIZERS	1.5 qts. (48 fl. oz.) per ton of UAN

MIXING INSTRUCTIONS:

UREA: Nterceptor Flex may be used to treat dry urea prior to application to turf. For best results apply treated urea soon after treatment.
